Dear friends,

I am pleased to present the 2023 Ward World Championship Carving Competition guide.

Our long-awaited return to the in-person competition is finally upon us! Our staff and volunteers are eager for this homecoming, as we are sure you are too. We can’t wait to see old faces and new as we enter this year’s competition.

Things may look a little different this year. Our “new” space in the renovated AB hall of the OC Convention Center will bring everything back together in one room. The competition, auction, and awards ceremony, together again in a single space, as the competition was in its early years.

We hope you enjoy the array of classes, workshops, and seminars we have lined up. We look forward to (finally!) celebrating our 2020-21 and 2022-23 Living Legends with you at the Grand Hotel. And we can’t wait to see all the amazing pieces you have been working on. It is going to be an event to remember.

We want to thank each and every one of you for your continued support, through thick and thin. Without you, this competition and the Ward Foundation would not be what it is. Your contributions allow us to bring this event year after year, and it cannot be overstated how important your financial support is to the longevity and vitality of the competition.

With that being said, we hope you will consider contributing to the longevity of the competition by donating to the benefit auction, sponsoring a category, sharing your time as a volunteer, or simply becoming a member of the Ward Foundation. Registration and admissions do not keep this competition afloat. It’s the generous donations of our amazing community that make it happen.

So bring your A-game, and we will see you in April!

Cheers,

Brittany Andrew
Interim Executive Director

TIPS FROM JUDGES

Tip number one: When bribing a judge, use high quality tape to secure the folded bills to the bottom of the bird. – All joking aside, (Thank you Pete Palumbo for this gem and thank you to all the judges that took the time to send in tips!) here are some tips from the judges:

• Keep a journal of special sightings, take your own photos. Spend time in nature.
• Create a carving that projects well and reflect a bird’s essence of specie. Surround yourself with reference material.
• Never create a new species, even in Interpretive. Gather as much resource material as you can. Stick to originality.
• When entering a Carving Competition, remember to enjoy the process from start to finish. When at the shows take time to view other carvings. Make notes at what grabs your attention. Never try and copy someone else’s work.
• Never try and impress the judges, it won’t matter as there are guidelines and criteria which are followed. If judges can’t come to an agreement, they will call in another.
• When having a piece with bird and prey, please make sure that you pay close attention to how each subject is interacting with the other. I have noticed many spectacular pieces where the bird of prey seems to be not looking at its prey. Also, pay special attention to how the pieces line up to each other. The use of a piece of string can be very helpful.
• The best advice I can offer is that accurate color and anatomy are critical to success in competition. Taking the time to collect and study good reference materials will help assure that you have your colors and anatomy correct. When you are in the tank or on the bay with other competitors, an off-color bird or one with poor anatomy will be very obvious to the judges as they compare the entries to select the best ones.
• Learn how to sand properly before attempting to paint. It makes all the difference.
• Make sure to sand, sand and sand. No flat spots or areas that are not sanded enough. A clean finish will create a great surface for painting.
• Experiment with finishes, save a piece of wood that you are using so you can.
• To convey emotion in the face and eyes will always get my attention.
• “The eyes have it” as they say. I always naturally look at the eyes. Proper eye placement is one of the most challenging areas of the carving and eyes that are not correctly set will throw off the carving.

• Bill angle is another thing to work on. A droopy will cause the whole carving to look awkward. Eye and bill angle go hand in hand.
• Maintain color harmony and feather proportion that reflects the field marking of selected species.
• Each species has its own Characteristics that should be executed. From a simple silhouette working through anatomy, to its finish, whether painted or stained.
• Painting a feather pattern differently from one side to another i.e., showing more tertials on one side or dropping a wing slightly as found in true life.
• Expressing gesture through movement is so important.
• There’s several items you can control when making floating decoy. Floatation is one of and an important one. So take a little time and float your decoys properly.
• Within the Interpretive category, line, form and movement are a must. If you have an idea and it only makes sense to you, follow through. Art is subjective. Some viewer might love your carving, others won’t understand it. It does not matter. It is your creation.
• My tip for interpretive carvers is to remember that it’s called Interpretive Wood Sculpture. For me the key word is sculpture. Educate yourself by studying classic sculpture. Understanding how lines, negative and positive space and all the technical elements work in bronze, ceramic, stone and wood sculpture that has been done for the last few thousand years can help you make your sculpture better. As a judge, I try to look at each piece as if it was a bronze sculpture. If it would make a strong bronze it is likely a strong sculpture.
• At the end of the show it is not about the ribbons you may or may not have received, you will leave with awesome memories made and lifelong friendships.

CLASSES
TUESDAY-SUNDAY, APRIL 18-23
Learn to create award-winning carvings with World Champion and professional carvers at the 2023 Education Conference. Enjoy a variety of one-, two- and three-day classes offered by the Ward Museum’s Education Department in conjunction with the Ward World Championship. Classes occur prior to the competition in various locations throughout Ocean City, MD, starting Tuesday, April 18, and continuing through Sunday, April 23. Here is a preview of the exciting offerings that will be available during the conference. Watch our website for updates.

3-DAY CLASSES:
TUESDAY-THURSDAY, APRIL 18-20
Rich & Ross Smoker: Carve and Paint a Ward Bros. Goose: Beginner through advanced, micro-motor or hand tool carving. Join Rich and Ross Smoker to carve and paint a replica of a Ward Brothers Canada Goose decoy. Using many different methods and techniques, including painting with oils, we will endeavor to replicate feathers painted by the masters.
Al Jordan: Carve and Paint a Red-tailed Hawk Head: Carve, texture and paint a red-tailed hawk head with master falconer and master carver Al Jordan.
Paint a Harlequin Drake: Beginner-advanced. Using brushes and acrylic paints on a cast from an original carving by Glenn McMurdo, master the intricacies of this unmistakable bird. Learn color theory, how to add and blend colors, and how to paint final detail, as well as the how and why of paint and paintbrushes.
Vic Hood: Carving a Human Bust: Vic has been teaching wood carving for over 25 years and has won top awards in various competitions throughout the country. Vic has designed a class that encourages students of all levels to create their own piece of art. There will be a strong emphasis on design, creativity, and technical execution. This is not a portraiture class, but subject based for example, an American Indian, Sea Captain, Mountain Man. etc. It is up to the student to decide what they want to carve. The structure of the class allows for all levels of carving experience, from beginners to accomplished. There will be models available to help students to develop ideas and design. This is a mallet class therefore students need to bring standard size tools; some palm tools will also work. If you do not have mallet tools, they will be provided.

1- OR 2-DAY CLASSES:
WEDNESDAY-THURSDAY, APRIL 19-20
Laurie & Mike Truehart: Join us for a class in project advancement. Bring a current project you are working on and get tips, techniques and advice. This class is open to all skill levels and all carving subjects (birds, animals, objects, etc.) Please note that this will be offered as a one-day or a two-day course, with participants able to take the day(s) of their choosing. Participants are encouraged to bring their own tools and materials. Tools can be provided for those who travel and are unable to bring their own. At least one month before the class, please ensure the instructors know what piece you intend to bring so they can be prepared to help to the fullest extent.

Pat Godin: Painting Feathers: Pat Godin will lead and instruct the students through the painting of various styles of feathers found frequently on birds. This will include the painting of iridescence (Wood Duck Drake), complex patterns (Mallard Hen), and vermiculation. Through the two days 3 or 4 projects will be worked on. The painting will be accomplished on gessoed boards supplied by Pat. In addition to the painting methods, three-dimensional painting techniques will also be taught. Students will be required to bring their own paints, brushes, airbrush and compressor, palettes and other supplies and materials.

1-DAY CLASS: THURSDAY, APRIL 20
Painting with a Golden-crowned Kinglet with Josh Guge: Painting is always the most difficult aspect of the bird sculpting process. Josh will teach you how to conquer these challenges in a one-day paint class. He will cover all aspects of painting including:
• Using thin washes to create depth in base coats
• How to utilize texture to benefit your painting results
• The right brushes and techniques for adding detail to your birds
These techniques help Josh create a soft and realistic look that has gained him a reputation of award-winning art.
Josh will provide a study cast or students can bring in their own wood carved golden crowned kinglet. Students must ensure it is sealed and ready to paint. Paints will be provided by the instructor.

1/2-DAY CLASSES:
THURSDAY-SUNDAY, APRIL 20-23
Saturday: Ross Smoker: Carving for Beginners: Ross Smoker leads a class in basic carving techniques to create a miniature songbird. Participants will finish the class with an unpainted shorebird. Tools and materials provided.

For pricing and an updated list of classes, lectures, workshops and more, please check www.wardmuseum.org as we approach Worlds 2023!
Pre-registration is required for all classes on a first-come, first-served basis. Payments are due by March 1, 2023 and can be paid online, through the mail, over the phone, or in person at the Ward Museum, 909 S. Schumaker Dr., Salisbury, MD 21804. Those who rolled over their class payments from 2020 are still enrolled in their class. Those who were refunded payments are not enrolled in any class.

COMPETITION LEVELS

THE COMPETITION IS OPEN TO WOOD SCULPTORS OF ANY LEVEL OF ARTISTIC SKILL. IN ADDITION TO WORLD AND MASTERS, THERE ARE THREE GENERAL LEVELS OF COMPETITION: ADVANCED, INTERMEDIATE AND NOVICE.

Carvings are grouped together by levels indicated by colored banners hanging over the display areas.

- **World (white banners):** In the six World Divisions, entrants compete for the title of World Champion, championship ring and cash award.

- **Masters (turquoise banners):** Only carvers who have previously won two Best of Show awards in Advanced, or placed 1st, 2nd or 3rd in World in any division other than SR, Shootin’ Rig are eligible to enter in Masters and are no longer eligible to enter Advanced. They are eligible to enter any of the four divisions of the Masters Class competition and/or they may elect to compete for a World title. This applies to either an individual carver or a carver in partnership with another artist. If it is discovered that a carver has entered Masters without meeting the eligibility requirement, the entry will be immediately removed from the Masters area. If judging has already occurred, any awards will be rescinded.

- **Advanced (blue banners):** This level represents advanced amateur and professional carvers, including those who have obtained top rankings in competitions. Entrants compete for cash awards, ribbons and rosettes. Advanced is not open to MASTER carvers. Any carver who is not eligible for Masters but has entered at the World Level, must enter Advanced.

- **Intermediate (yellow banners):** This level includes carvers who have refined their sculpture and painting skills beyond the novice level. Intermediate carvers compete for ribbons, rosettes and Best in Show cash awards. Entrants who have won one Best in Show or two Best in Division (excluding Bench) awards at this level in the World Competition must move to the Advanced level. Carvers who have been consistent blue ribbon winners at this level are encouraged to move up to Advanced.

- **Novice (red banners):** This level is reserved for entry-level carvers. Novice carvers compete for ribbons, rosettes and Best in Show cash awards. Entrants who have won one Best in Show or two Best in Division (excluding Bench) awards at this level in the World Competition must move to the Intermediate level. Carvers who have been consistent blue ribbon winners at this level are encouraged to move up to Intermediate.

JUDGING CRITERIA

The following definitions of judging criteria have been adopted by the Ward Foundation. Each criterion is given equal weight in the judging process. The higher the level the more critically accessed. These criteria will be used for all of the following levels of competition—World, Masters, Advanced, Intermediate, and Novice—in all divisions except Interpretive:

- **Technique/Craftsmanship** refers to the technical skills involved in bird carving: sculpting, painting and finishing techniques and their execution. It covers the bird or birds, any habitat or accessories that may be involved and the base itself if there is one. Craftsmanship should be consistent throughout the entire piece. Good craftsmanship is basic to bird carving. Without it, a piece will go no further.

- **Accuracy** involves the correctness of a piece from a scientific perspective. Is the bird the right size? Are the feathers the right shape? Is the coloration and pattern correct? Are the eyes properly placed? Do the toes have the right number of joints and are they in the right places? All these are questions of accuracy. Anything accompanying the bird must be given the same scrutiny. Accuracy involves the natural history of the whole piece, all of its components and the appropriateness of these components together.

- **Essence of the Species** involves taking accuracy one step further. It involves a thorough knowledge of one’s subject and the ability to capture an attitude in wood. You see a bird on your lawn at dusk. You can’t see any details in the failing light, just a silhouette, and yet the hop and cock of the head immediately identify it as a robin. The essence of the bird is there without a feather count, a measurement of length or a check on color. You may have flawlessly crafted your bird with faultless accuracy, but unless you have captured the essence of your subject and given it the spark that brings it alive, your bird will not achieve its fullest potential.

- **Artistry** of a piece involves its design and composition. This is where presentation, innovation and creativity all come into play. There should be a beauty in the concept apart from the beauty of the bird itself. Line, form, content, color, mass and movement should all be working together to create an integrated whole. Of all the concerns in carving, artistry is the most elusive, the most difficult to explain, to teach, to analyze in the work of others, and to instill in one’s own work. But the difficulty is an indication of the importance.

- **Overall Presentation.** What is rare is often what is valuable. Bird carving requires a multitude of technical skills brought together in overall presentation. Additionally, it requires a thorough knowledge and understanding of birds scientifically as well as emotionally. But most importantly, it involves the ability to bring all these elements together artistically. If bird carving is to move beyond craft to art, our goals and expectations must do the same. No artificial lighting will be used during judging, artificial lights (handheld or tabletop) are not permitted and will not be on the display.

- **All criteria are important.** They all overlap and build on each other. In order for a piece to reach its fullest potential it must succeed in all five areas simultaneously. For the sake of clarity we have dealt with them individually, but in reality the distinctions are not so clear cut.

As the competitor moves through the different levels of competition and eventually to the Masters and Advanced levels, technique/craftsmanship and accuracy as criteria are taken almost for granted, as these are the tools expected to have been mastered, allowing the artist to concentrate on essence of the species and artistry of the competition piece entered. Please refrain from posting images of your work in progress to finished carving of your entry pieces on social media.

Some rules are open to individual interpretation, giving an artist as much artistic license as possible; some are very specific. It is up to the judges to interpret the rules with guidance from the Ward Foundation. The judges’ decisions are final.

DECORATIVE MINIATURE MEASURING CRITERIA

Entries must be one half lifesize or less. The Ward Foundation reserves the right to move entries deemed too large for miniature to the bench class.

WATERFOWL PAIR

Unless otherwise stated, a waterfowl pair is a drake and a hen of the same species.

RULES FOR BEST IN CATEGORY AND DIVISION AWARDS

- **First,** Second and Third in Category winners (Division E, CD, GP, SW and YG) will be determined with First in Category being selected from the First in Species winners. Second in Category will be chosen from the remaining First in Species winners along with the Second in Species of the previously selected species. Third in Category will be chosen from the remaining First in Species winners plus the next runner up at the species level in the species previously selected for First and Second in Category. In other words, it is possible to select First, Second and Third in Category from the same species.

- **Best in Division (All Divisions except World’s, MH & H)** will be selected from the winner of each of the Categories. Second in Division will be selected from the remaining First in Category winners plus the Second in Category winner from the previously chosen Category. Third in Division will be chosen from the remaining First in category winner(s) and the next runner up at the Category level in the category(ies) previously selected for First and Second Division. In other words, it is possible for judges to select First, Second and Third in Division from one species.

- **Division MH & H** will be judged for Best in Division with second and third awarded as well.

Competitors must submit documented reference materials at the time of registration for those birds not listed in the National Audubon Society The Sibley Guide to Birds. These reference materials are necessary for the accurate judging of your bird. The Ward Foundation is not responsible for lost reference materials.
CHAMPION LEVEL
WORLD CLASS

THE SIX WORLD DIVISIONS PROVIDE THE OPPORTUNITY FOR ADVANCED LEVEL CARVERS TO COMPETE FOR THE TITLE OF WORLD CHAMPION. THESE ARE ELITE DIVISIONS FOR THOSE CARVERS WHOSE WORK DEMONSTRATES THE HIGHEST LEVEL OF ARTISTRY AND TECHNIQUE. JUDGING STANDARDS ARE THE MOST DEMANDING WITH THE VERY BEST CARVINGS EARNING THE TITLE “BEST IN WORLD.” IF A CARVER ENTERS IN THE WORLD CLASS AND PLACES IN THE FUTURE THEY MUST ENTER MASTERS; IF THEY DO NOT PLACE AND NEVER HAVE PLACED, THEY MUST ENTER ADVANCED.

Any artist with an entry not suitable for tabletop display is required to notify the Ward Foundation by April 1, 2023.

SALISBURY UNIVERSITY PRESIDENT’S CHOICE
SU President Carolyn Ringer Lepe will choose her favorite World Division Carving to be displayed at SU for one year. Winner of this award will get a special rosette and $75 in prize money.

ENTRY FEE
$150 per entry, each division
Entries are limited to one per division. World division competitors entering additional pieces must enter at the Advanced levels or, if qualified, at the Masters level.

Divisions
A — Decorative Lifesize Wildfowl
B — Decorative Lifesize Waterfowl Pair
C — Decorative Miniature Wildfowl
D — Interpretive Wood Sculpture
SR — Shootin’ Rig
WG — Single Gunner Decoy

1. Entries must have been completed since April 30, 2019, and not entered in the hybrid 2022 show.
2. Entries must be original in design and concept. If after judging it is determined that this policy has been ignored, the award will be rescinded.
3. Entries are limited to one per Division, per entrant.
4. Species and sex must be designated on the entry.
5. Name of artist should not be visible.

Divisions A and C — Decorative Lifesize Wildfowl and Decorative Miniature Wildfowl
Entries will be judged on Technique/Craftsmanship, Accuracy, Essence of Species, and Artistry and Overall Presentation.

1. The entry will consist of one or more birds of any species with emphasis on creating an innovative and artistic composition.
2. Entries are to be made of wood. Other materials may be used for habitat and structural purposes; however, they are to be hand formed with the exception of eyes.

Division B — Decorative Lifesize Waterfowl Pair
The 2023 species is a Canada Goose. Entries will be judged on Technique/Craftsmanship, Accuracy, Essence of the Species, Artistry, Overall Presentation and Proper Floatation.

1. Entries are to be made of wood; glass eyes are permitted and materials other than wood can be used in fragile tails and crests.
2. Entries must float in a natural position but do not have to self-right.
3. Judging for Decorative Lifesize Waterfowl will be limited to the designated waterfowl only.
4. If a base is used, it must be separate from the carving and indicate placement. The base will not be considered part of the carving and will not be displayed during judging.
5. Any deterioration of the paint or structural integrity at the completion of judging will result in the disqualification of the entry.

Division C — Decorative Miniature Wildfowl
1. Entries must be one half lifesize or less. All other criteria are the same as Division A.

Division D — Interpretive Wood Sculpture
Entries will be judged on craftsmanship, artistry, interpretation of the essence of the wildfowl and originality. A carving should emphasize form, content and movement rather than a realistic duplication of the wildfowl. It should be presented in a style that provokes thought and wonder.

1. Subject may be entrant’s choice from any wildfowl.
2. Entry is to be entirely of wood with the exception of the structural elements. The base may be of another material and will be considered as part of the sculpture.
3. If a supporting pedestal under the base is needed, it must be provided by the artist and it will not be considered as part of the sculpture.
4. Interpretive Wood Sculpture entries have no size restrictions.

Division SR — Shootin’ Rig
These decoys are rooted in the classic gunning decoys’ function and design. As a World Class division, they are judged on Technique/Craftsmanship, Accuracy, Artistry, Overall Presentation and Proper Floatation. Judging is a two-part process. It begins on the table where they are judged in hand and reviewed for compliance of the rules. Final judging is done while the entries are floating on Assawoman Bay at a minimal distance of 20 feet. Judges remain on the judge’s platform until the judging is completed. Decoys once set remain at anchor for the duration of judging.

1. Any worldwide species of waterfowl, including pelagic and coastal seabirds, may be selected. All seasonal plumages are acceptable.
2. Three birds are required: a drake and hen of the same species with a third bird of choice.
3. Decoys shall be floated as a rig and they must self right. Anchor lines with a maximum length of 6 to 8 feet will be attached to each rig component. Sufficient weights are required.
4. Decoys will be judged under natural weather conditions in Assawoman Bay and demonstrate proper floatation.
5. Decoys shall be constructed of wood or cork; glass eyes are permitted. All vulnerable areas must be durable; materials other than wood can be used in tails and crests. During registration, carvers have the option to submit in writing any structural strengthening techniques used in their rig. This information will be identified by carver’s number and given to the judges during their initial evaluation.
6. No burning or fine stoned texturing is allowed. However, simulated texture using gesso, modeling paste, or texture paint in combination with combing, scratching, or brushing is acceptable. Minimal carving techniques used to simulate feather texture on heads, i.e. merganser heads, are acceptable.
7. Any deterioration of the paint or structural integrity at the completion of judging will result in the disqualification of the entry.

Division WG — Single Gunner Decoy
The 2023 species is a wood duck (any, worldwide). This division emphasizes simplicity and most resemble the functional tool of the

LEVELED COMPETITION

MASTERS

THE MASTERS CLASS OPENS UP OPPORTUNITIES FOR CHAMPION CARVERS TO ACHIEVE A NEW LEVEL OF EXCELLENCE IN THEIR ART AND TO BE RECOGNIZED AND HONORED WITH AWARDS AT THIS MOST COMPETITIVE LEVEL.

Only carvers who have previously won two Best of Division awards in Advanced, or placed 1st, 2nd or 3rd in World in any division other than SR, Shootin’ Rig, are eligible to enter in Masters. They are eligible to enter any of the four divisions of the Masters Class competition and/or they may elect to compete for a World title. This applies to either an individual carver or a carver in partnership with another artist. If it is discovered that a carver has entered Masters without meeting the eligibility requirement, the entry will be immediately removed from the Masters area. If judging has already occurred, any awards will be rescinded.

Any artist with an entry not suitable for tabletop display is required to notify the Ward Foundation by April 1, 2023.

ENTRY FEE

Entries must have been completed since April 30, 2019.
Species list on page 21.

Divisions E, F and G (Species List on page 21)
Entries will be judged on: Technique/ Craftsmanship, Accuracy, Essence of the Species, Artistry and Overall Presentation.

1. ADVANCED and INTERMEDIATE entries must be original in design and concept. Work done directly from study birds, published patterns or a classroom project will NOT be considered as original in design and concept. If after judging it is determined that this policy has been ignored, the award will be rescinded. NOVICE carvers will be permitted to enter carvings created from published patterns. Entries created from study birds or classroom projects will not be permitted except in bench. Originality continues to be strongly encouraged.
2. Entries are to be made of wood. Other materials may be used for habitat and structural purposes; however, they are to be hand formed with the exception of eyes.
3. Novice only—Although hand-formed feet and legs are encouraged, novice carvers are permitted to use cast feet and legs.
4. Novice only—Although hand-formed habitat is encouraged, it is not required.
5. Name of the artist should not be visible.

Division E—Decorative Lifesize Floating Waterfowl
1. Entries must be life sized.
2. If the artist enters more than one carving of the same species, both sexes must be represented.
3. Materials other than wood can be used in tails and crests.
4. Entries must float in a natural position but do not have to self-right.

LIVE BIRDS OF PREY DEMONSTRATION
SUNDAY, APRIL 23, 2023
during the Ward World Championship
The Champion level will be divided into three Categories: Marsh Ducks; Diving Ducks; and Geese, Swan, and Confidence. Anyone who has placed in a World division or competes at the Masters level or has won 2 best in shows in CD or GP must enter the Champion level. Anyone can choose to enter GPC, but once they have competed in GPC level they cannot return to the regular GP.

1. Carving and painting should be functional enough to be used as tools for hunting. NO undercut feathers.
2. Decoys will be floated and must self-right from any position, except Geese, Swan and Confidence, which must right only from their side(s). All entries will be judged for stability and proper flotation.

3. Entries must be made of wood or cork. Glass eyes are permitted and materials other than wood can be used in fragile tails and crests.

Division CD & CDC—Contemporary Decoy

Entries are modern contest grade decoys, judged on form and function.

This division is divided into two levels, CD and CD Champion (CDC). The rules for each level are the same. CD is open to all except for those who qualify for the Champion level.

The Champion level will be divided into three Categories: Marsh Ducks; Diving Ducks; and Geese, Swan, and Confidence. Anyone who has placed in a World division or competes at the Masters level or has won 2 best in shows in CD or GP must enter the Champion level. Anyone can choose to enter CDC, but once they have competed at the CDC level they cannot return to the regular CD.

1. Decoys will be floated in the tanks and must self-right from any position, except Geese, Swan and Confidence, which must right only from their side(s). All entries will be judged for stability and proper flotation.

2. Carvings must have sturdy tails and all raised wings must be durable.

3. No burning or fine stoned texturing is allowed. However, simulated texture using gesso, modeling paste, or texture paint in combination with combing, scratching, or brushing is acceptable. Minimal carving techniques used to simulate feather texture on heads, i.e. merganser heads, are acceptable.

4. Painting techniques shall be typical of a modern functional decoy. Entries may include some simple blending of feather edges and internal markings, feather splits, highlighting and hand vermiculation. (Carvings with fully developed decorative painting should be entered into Smoothie Waterfowl.)

5. Any deterioration of the paint or structural integrity at the completion of judging will result in the disqualification of the entry.

Division CA—Contemporary Antique

Decoys will be judged in hand to include all surfaces and attachments. Contemporary Antique will be divided into 10 categories representing Pristine for antique style pieces which have not been subjected to any field use with minimal wear and patina permitted and Worn for pieces which have received heavy field use in which moderate to severe deterioration is apparent. There will be five categories each for Pristine and Worn: Marsh Ducks, Diving Ducks, Geese and Confidence, Shorebirds and All Others.

1. Entries can be inspired by old decoys from geographic areas but must be the carver’s original design and interpretation of an old decoy.

2. Entries will be a single decoy. Multiple birds, waterfowling membranous and “copies” are not permitted.

3. All entries must be signed and dated.

4. Decoys should be made to look old by the manner in which they are carved, painted and finished.

5. Shorebirds and Wading Birds must be mounted on a dowel and have simple base.

Division SD—Shorebird Decoy

Entries are contemporary shorebird decoys that emphasize simplicity of line and paint. The division is divided into seven categories. Please check Species List on page 7 for accepted species.

1. Entries will be a single decoy constructed of either wood or cork with no preference shown by the judges.

2. Separation between wings and tail is permitted providing both are durable.

3. Simplicity of painting is required.

4. Must be mounted on a simple base with a wood or metal dowel. “Exception Single Gunner may be either sex

Division JB—Bench

This division is reserved for the entries that do not meet the rules for any other division. Classroom carvings, group projects with a group leader and carvings from CAST STUDY BIRDS ARE permitted in this division. Entries will be divided into four categories: waterfowl, shorebirds, songbirds, and all other wildfowl.

1. Entries must be made of wood or cork. Glass eyes are permitted.

2. Waterfowl entries will not be floated during judging.

3. Entries will not be considered as gunning decoys, therefore may be textured.

DEDECORATIVE SMOOTHIE

This competition challenges the artist to capture the essence of the species via form and paint. Only the bird will be judged, feet and habitat will not be taken into consideration. Entries are non-textured carvings done to the artist’s highest abilities. The carving will be judged for the likeness and essence of species and artistry. SW and SS are to be lifesize. Only the Champagne Waterfowl Divisions will be floated.

Divisions
SW, SWC — Decorative Smoothie Waterfowl
SS — Decorative Smoothie Shorebirds and Wading Birds
CW, CWC — Champagne Waterfowl Division
Entries must have been completed since April 30, 2019.
Species list on page 21.

Division SW & SWC — Decorative Smoothie Waterfowl
This division will be divided into two levels, SW and SW Champion (SWC). The rules for each are the same. SW is open to all except those who must enter SW Champion. The Champion level will be divided into three categories: Marsh Ducks; Diving Ducks; and Goose, Swan and Confidence.

1. Entries must be smooth. Groups of feathers can be defined, i.e. tertials, scapulars, side pockets, etc. No texturing is allowed.
2. There are no restrictions on paint.

Division NW & NCW - Non-Floating — Champagne Wildfowl Division
Entries will be divided into four categories: Marsh Ducks, Diving Ducks, Geese, Swan and Confidence and Pelagic and Coastal Seabirds. This division will be divided into two levels, CW and CW Champion. The rules for each are the same. CW is open to all except those who must enter CW Champion. Anyone can choose to enter the Champion level, but anyone who has placed in a World Division; competes at the Masters, CD or SW Champion level; or has won two best of divisions in Champagne Waterfowl must enter the Champion level. Once a person has entered CW, they are not eligible to return to CW.

1. Entries must fit within a 3 1/2 inch circle.
2. Entries must float properly but do not have to self-right.
3. Entries can be either flat bottomed or with a keel; the judges will not give preference to either.
4. Entries must be smooth. Groups of feathers can be defined, i.e. tertials, scapulars, side pockets, etc. No texturing is allowed.
5. There are no restrictions on paint.

Division CW & CWC - Floating — Champagne Waterfowl Division
Entries will be divided into four categories: Marsh Ducks, Diving Ducks, Geese, Swan and Confidence and Pelagic and Coastal Seabirds. This division will be divided into two levels, CW and CW Champion. The rules for each are the same. CW is open to all except those who must enter CW Champion. Anyone can choose to enter the Champion level, but anyone who has placed in a World Division; competes at the Masters, CD or SW Champion level; or has won two best of divisions in Champagne Waterfowl must enter the Champion level. Once a person has entered CW, they are not eligible to return to CW.

OPEN/ADVANCED, INTERMEDIATE & NOVICE
1. OPEN/ADVANCED and INTERMEDIATE entries must be original in design and concept. Work done directly from study fish, published patterns or as a classroom project will not be considered as original in design and concept. If after judging it is determined that this policy has been ignored, the award will be rescinded.
2. NOVICE entries will be permitted to enter carvings created from published patterns; however, entries created from study fish or classroom projects will not be permitted. While use of published patterns at the NOVICE level is permitted, originality continues to be strongly encouraged.
3. Entries may enter at only one level—OPEN/Advanced, Intermediate or Novice. Carvers entering both Fish andWildfowl competitions must enter at the same skill level.
4. Entries are to be made of wood in all Divisions. Other materials are permitted for habitat and structural purposes, however, they are to be hand formed with the exception of eyes.
5. Entries under glass may be permitted if the glass is removable by the carver for judging.
6. Name of artist should not be visible.
7. Interpret category includes natural finish and follows the guidelines of Interpretive Wood Sculpture in the wildfowl divisions. It should be in a style that provokes thought and wonder.

Division CFD - Fish Decoy/Lure:
Champagne Fish Division
Entries will be divided into categories: Fresh Water and Salt Water. The rules for each are the same. CFD is open to all.
1. Entries must fit within a 3 1/2 inch circle.
2. Entries should be in realistic. May be mounted on bases to enhance sculptural effects; the judges will not give preference to either.
3. Anatomical features can be defined. Texturing is encouraged.
4. There are no restrictions on paint.
5. Entries DO NOT need to float.

FEATHER AND FRONDS COMPETITION

ENTRY FEES / SCULPTURE
$50 First entry
$35 Each additional entry

Division Feather
1. Use means and materials that would provide a lifelike feather, provided that the feather itself is made out of wood.
2. The quill, shaft and down can be painted to emulate the feather provided that the feather itself is made out of wood.
3. PLEASE DO NOT BRING YOUR MODEL FEATHER.

Division Fronds
1. Major portion of entry must be made of palm frond.
2. The challenge is to portray the “essence of species” of your subject while retaining as much of the character of the palm frond as possible.
3. Palm fronds will be judged on the table.

OPEN CARVING COMPETITION

OPEN CATEGORY

- Two Divisions: Open Carving Lifesize and Open Carving Miniature

5 Categories in Each Division

- Human Forms
- Animals other than birds or fish (fish includes water mammals)
- Reliefs
- Chip Carving
- Other Carvings

1. Entries will be judged on: Technique/Craftsmanship, Accuracy, Essence of subject/species, Artistry, and Overall Presentation
2. Entries must be original in design and concept. Work done directly from study of subject, published patterns or classroom projects will not be considered as original in design and concept. If after judging it is determined that this policy has been ignored, the award will be rescinded. Entries created from a work of fiction or mythological belief are allowed, but must be original in design and concept.
3. Entries are to be made of wood. Other materials may be used for habitat and structural purposes; however, they are to be hand formed with the exception of eyes in the carving.
4. Name of artist should not be visible.
5. For Miniature: Entries must be one half lifesize or less. The Ward Foundation/Floor Captains reserves the right to move entries deemed too large for miniature.

COLLECTOR’S CORNER

This is your chance to show off your favorite collectible decoy and win a ribbon. Bring your favorite decoy made prior to 1950 that fits the categories below. Decoys will be judged by judges and the public.

DIVISION CI

CHAMPAGNE INTERPRETIVE

Entries will be judged on artistry, interpretation of the essence of the wildfowl and originality. A carving should emphasize form, content and movement rather than a realistic duplication of the wildfowl. It should be presented in a style that provokes thought and wonder. Natural finish ONLY.

1. Entries must fit within a 3 1/2 inch circle, this includes the base.
2. Subject may be entrant’s choice from any wildfowl.
3. Entry is to be entirely of wood with the exception of the structural elements. The base may be of other materials and will be considered as part of the sculpture. There must be no or minimal assembly required when the carving arrives at the museum for staff to assemble.
4. If a supporting pedestal under the base is needed, it must be provided by the artist and it will not be considered part of the sculpture. If included, it must require only simple assembly, and instructions must be provided. Must also fit in the 3 1/2 inch circle/cylinder (Height limit of 7 inches tall).
